

Subject: Laci Tucker and Geared Media

What a pleasure it has been working with you on our recent logo project!

You listen to our needs and our budget. Then you created this beautiful logo that is very workable in the colors you designed but also in black and white. It is perfect for both print and electronic media.

This is no surprise to me as every project we have worked on together has been like this. From the first four color brochure and the informational sheets to the recent very difficult task of making a bland report formatted correctly and attractive.

I will continue using your services for all future projects.

Thanks again for interpreting my vision, even when I am not sure what that vision really is.
